The human right to water and the 2030 agenda Good practices and renewed efforts

Discussion in commemoration of the
International Day of Mother Earth

**17 April 2019, room IX, 14h – 15h
Palais de Nations**

Water is the resource that enables life on the planet and it has been recognized by the General Assembly and the Human Rights Council as a human right essential for the full enjoyment of life and all human rights. In this regard, the event will contribute to share good practices in the field of the human right to water, and will provide an informal space of discussion about opportunities to continue advancing the promotion of the human right to water in the context of the 2030 agenda for sustainable development.

Program
